## **2012 AARCMCC SOUTH AUSTRALIAN LARGE SCALE STATE TITLES LITTLEHAMPTON SOUTH AUSTRALIA**

### **Location & Facility:**

This circuit is located at Littlehampton in the heart of the picturesque Adelaide Hills, about half an hour drive from Adelaide city. Situated on the side of a hill, the circuit provides changes in elevation, an unusual characteristic for a race track. The facilities include :

- \* A driver's rostrum which can comfortably accommodate fourteen competitors and is well elevated, providing an excellent view of the circuit.
- \* Male & female toilets.
- \* A fully serviced canteen.
- \* A lap counting shed, incorporating the latest AMBrc lapcounting system.
- \* A very comfortable pit shelter, complete with steel work benches for 50 competitor, 240V power and brick paved flooring. We will provide additional trestles and marquees, as required, to accommodate extra entries.

Parking is available on site. Adjacent to our facility there is a children's playground with seating and electric barbeques.

### **The Circuit:**

- \* The track was completed in March 1985 and was 220 metres long.
- \* In January 1994 the track was extended to 240 metres, a cut through add on the pit straight and fully resurfaced.
- \* In October 1997 the track was again fully hotmixed.
- \* In February 2004 the circuit was extended to 300 metres, with 2 cut throughs added for track variations and a full hotmix.
- \* We do not lay any additives on the track surface at any time.
- \* We have lawned run off areas to minimise car damage as much as possible.
- \* The track consists of a combination of some tight hair pin corners, some very fast flowing corners and several off camber corners. The centre "esses" are an important part of the character of the circuit as they have a substantial elevation change and tend to throw a car off line if it is not correctly set up.

### **Accommodation:**

All of the suggested accommodation is within a 5 minute drive to the track.
